

Topics in Human Space Exploration and Medicine

An Elective Lecture Series Presented by the Center for Space Medicine

The Martian Chronicles

Speaker: Scott A. Dulchavsky, M.D., Ph.D.
Professor of Surgery, Molecular Biology and Genetics
Wayne State University School of Medicine
The Roy D. McClure Chairman of Surgery and
Surgeon-in-Chief
Henry Ford Hospital

Wednesday, October 10, 2012

12:10 – 1:00 p.m.

DeBakey Classroom M423

Learning Objective: Providing medical care on the International Space Station and in under-served regions on the planet has many similarities. New care paradigms, developed for use by non-physician astronauts, have been successfully transitioned to Earth to increase care capabilities in remote, underserved, and resource constrained regions.
