

CENTER FOR  
SPACE MEDICINE

## Introduction to Human Space Exploration and Medicine

An Elective Lecture Series presented by the Center for Space Medicine

# Pharmacology in Spaceflight Missions

Speaker: Virginia E. Wotring, Ph.D.

Assistant Professor of Pharmacology and Space Medicine  
Baylor College of Medicine  
Science and Technology Manager  
National Space Biomedical Research Institute

### Learning Objectives:

1. To understand how pharmaceuticals could be used to help astronauts function best in the unusual environment of a spaceflight mission.
2. To understand the unique requirements of a long duration mission on a medication kit.

Wednesday, March 30, 2016

12:00 – 1:00 p.m.

Kleberg Auditorium
