

Introduction to Human Space Exploration and Medicine

Astro-Omics as a First Step to Deploying Precision Medicine in Space

Speaker:

Graham B.I. Scott, Ph.D.
Associate Professor
Department of Molecular and Cellular Biology and
Center for Space Medicine
Vice President, Chief Scientist & Institute Associate Director
National Space Biomedical Research Institute (NSBRI)
Director, Translational Research Institute

Wednesday, April 19, 2107

12:00 – 1:00 p.m.

Kleberg Auditorium

Learning Objectives:

- Describe the emerging field of Astro-Omics, with particular emphasis on the NSBRI/NASA supported Twins Study.
- Discuss the implications of the NSBRI/NASA supported Twins Study with particular emphasis on this endeavor being a first step to deploying precision medicine in space.
