

Topics in Human Space Exploration and Medicine

An Elective Lecture Series Sponsored by the Center for Space Medicine

Ultrasound Imaging in Various Care and Education Settings: What's in Store for Today's Student

Ashot E. Sargsyan, M.D.
International Medical Liaison
Space Medicine
Wyle Integrated Science and Engineering Group

Wednesday, October 14, 2015

12:10 – 1:00 p.m.

DeBakey Classroom – M321

Educational Objectives:

- To enhance the understanding of the potential of sonography in various medical disciplines and settings
- To stress the potential of sonography in medical education through a live dynamic demonstration of regional anatomy
- To stimulate interest in the use of sonography in real-time patient examination
