

## Topics in Human Space Exploration and Medicine

An Elective Lecture Series presented by the Center for Space Medicine

### **Pharmacological Considerations for Space Flight Missions**

Speaker: Virginia E. Wotring, Ph.D.

Assistant Professor of Pharmacology and Space Medicine

Baylor College of Medicine

Chief Scientist and Deputy Director, Translational Research Institute

Science and Technology Manager

National Space Biomedical Research Institute

#### Learning Objectives:

- Understand what a medication's expiration date means and how it is determined.
- Understand the potential consequences of medication stability for long duration spaceflight.
- Understand the potential consequences of altered pharmacokinetics on therapeutic safety and efficacy.

Wednesday, October 12, 2016

12:00 – 1:00 p.m.

Kleberg Auditorium
