

CENTER FOR
SPACE MEDICINE

Introduction to Human Space Exploration and Medicine

An Elective Lecture Series Presented by the Center for Space Medicine

Space: The Final Healthcare Frontier

Speaker: Dorit Donoviel, Ph.D.
Assistant Professor, Department of Pharmacology and
Center for Space Medicine, Baylor College of Medicine
Director, CSM Biomedical Innovation Laboratory
Deputy Chief Scientist,
National Space Biomedical Research Institute (NSBRI)

Wednesday, March 22, 2017

12:00 – 1:00 p.m.

Cullen Auditorium

Learning Objectives:

- Articulate how medical care can be provided in extreme environments in space.
- List some of the top health concerns for astronauts on deep space exploration missions.
- Explain how developing medical care approaches and technologies for space can impact healthcare on Earth.
