

CENTER FOR
SPACE MEDICINE

Introduction to Human Space Exploration and Medicine

An Elective Lecture Series Presented by the Center for Space Medicine

Frontiers in Space Medicine and Research

Speaker: Jeffrey P. Sutton, M.D., Ph.D.
Friedkin Chair for Research in Sensory System Integration and Space Medicine
Professor and Director, Center for Space Medicine
Baylor College of Medicine

President and CEO
Institute Director
National Space Biomedical Research Institute

Wednesday, March 15, 2017

12:00 – 1:00 p.m.

Kleberg Auditorium

Baylor College of Medicine

Learning Objectives:

- Gain knowledge about biomedical risks and human adaptation associated with space travel
- Understand how universities work with NASA to conduct space biomedical research that is operationally relevant
