SPACE MEDICINE

Topics in Human Space Exploration and Medicine

Musculoskeletal Injuries in US Astronauts:

Injury prevention strategies, including pre-flight EVA fitness training,
return to flight following injuries, and post-flight reconditioning

Speaker:

Richard A. Scheuring, DO, MS, RMSK, FAsMA
NASA Flight Surgeon
Team Lead, Musculoskeletal Medicine and Rehabilitation
NASA Johnson Space Center

Thursday, November 02, 2017

12:00 – 1:00 p.m.

Cullen Auditorium

Learning Objectives:

- Audience will gain knowledge in the different types of musculoskeletal conditions experienced in space and treatment strategies
- Audience will be able to differentiate mechanisms of injuries in astronauts upon landing from space
